# Raw Nature essentials

Men will be men in most aspects, but don't get manliness in the way of basic mancare

**W**E FOLLOW A SET routine. We wake up, brush, shower, and get on with the day. You have your shampoo routine and besides that, the regular man doesn't really care about the finer details of staying sharp. Raw nature sent us some of their essential products to make us better men; well at least when it comes to grooming and hygiene. A face wash isn't going to make you a nice guy, but you will have a pleasant face for sure. Here's what we've tried –

## THE NIGHT CREAM

We all skipped this one after a day or two. It seems fresh and on a warm summer night, has a nice cooling effect but we suppose it's an overkill in mancare. For those who would like to get into a routine with this one, we aren't the ones to stop you. It promises to remove dark spots and age defying is one of the tricks printed on the label. We're still young though.  
Price: Rs 1099

## THE BODY WASH

Honestly, I'd like a bit of foam in my body wash, but the natural fragrance of clay in this body wash makes up for the lack of foam. The loofah does help a bit but if you aren't a fan of loofahs, this one isn't for you. That fragrance though gives a wonderful earthy feeling, complementing the manliness in us.  
Price: Rs 1149

## THE BEARD WASH

Most of us are ignorant about proper beard care. Besides getting it trimmed right, there's a lot more to it and the first step is washing it. The bamboo, charcoal and acai oil beard wash is especially great after a day spent outdoors. The beard tends to get dirtier than the rest of the face yet we use our regular face washes at most times. Not now. We're enlightened with the conditioned beard.  
Price: Rs 699

## THE BEARD OIL

To ensure the beard stays that way after a beard wash and maintains its shine, the beard oil is essential. The charcoal fragrance stays longer, and a smooth beard is a great turn on. Girls love it, we've tested it. Wink. Anyway, it's good grooming, and it has encouraged the team at Urbane to grow longer beards. Just the guys, not the girls of course. Yeah, bad joke. But to be fair, it doesn't claim to make you funny.  
Price: Rs 699

## THE FACE WASH

The low foam volcanic green clay face wash is supposed to tighten pores and tone skin. It does all of that and feels fresh too. Especially after a long day of motorcycling, the instant freshness with just 30 seconds of the face wash is a nice feeling. What's good to know is that it is all natural, it is vegan, has no artificial fragrance or colours, and hasn't been tested on animals – just like the rest of the products on this page.  
Price: Rs 799

## THE CHAMOIS CREAM

Ah, this one we love. Those long days at the saddle or the tough days at the gym make areas below the belt quite uncomfortable. This cream was invented to reduce saddle sores, and a little research told us that cyclists back in the day kept slices of meat on the saddle to reduce their sores. No one's having that steak! Anyway, chamois cream works like a charm, and you've got to have it for general hygiene and also to impress the one who visits downtown.  
Price: Rs 749
